Information Systems graduate from Kalimantan Institute of Technology with a strong foundation in data analysis, business intelligence, and analytical problem-solving. Experienced in operational data management, reporting, dashboard development, and performance monitoring through academic projects and professional experience. Proficient in Microsoft Excel, Power BI, Google Looker Studio, and data visualization, with experience in data cleaning, validation, and business reporting to support data-driven decision-making.

EDUCATION

Kalimantan Institute of Technology - Balikpapan, Indonesia

August 2021 - July 2025

Computer Science, Major in Information Systems

Cumulative GPA: 3.77/4.00

RELATED PROJECT

Rakamin Academy x Kimia Farma

July 2025 - August 2025

Project-Based Virtual Intern: Big Data Analyst

- Analyzed and integrated large-scale datasets (500k+ rows) to support business decision-making.
- Designed analytical tables to calculate important metrics such as "nett_sales", "nett_profit", and "gross_laba", and perform data cleaning to ensure data integrity.
- Built an interactive dashboard in Google Looker Studio to visualize sales performance and branch profitability for management reporting.

Undergraduate Thesis

September 2024 - May 2025

- Completed an undergraduate final project titled "Peramalan Jumlah Kasus Penyakit Terbanyak Pasien Rawat Inap di Rumah Sakit Pertamina Balikpapan menggunakan *Machine Learning*".
- Conducted data analysis using over 150k rows of inpatient records to build forecasting models for the top 10 inpatient disease cases using the XGBoost algorithm.
- Developed a dynamic dashboard for visualizing forecast results using Python (Matplotlib, Seaborn, or Panel) to present forecasting results for management reporting and decision support.

WORK EXPERIENCE

PT. Telekomunikasi Indonesia - Balikpapan, Indonesia

Mei 2026 - Present

Business Planning, Budget Control, and Performance Support

- Prepared daily operational sales reports to support business performance monitoring across 4 business units.
- Performed data cleaning, validation, and classification of more than 10,000 operational records based on Witel, customer segment, and product to ensure data accuracy and consistency.
- Managed and updated performance monitoring dashboards by uploading validated operational data and maintaining data integrity for KPI tracking.
- Calculated and monitored key business performance metrics, including realization, revenue, sustain, scaling, outlook, and target achievement, to support business evaluation and planning.
- Utilized Microsoft Excel (Power Query, Pivot Table, VLOOKUP/HLOOKUP, IF Functions, Data Cleaning, and Charts) to process, reconcile, and analyze operational datasets.
- Supported the preparation of 3-4 weekly management presentations by providing data analysis, charts, tables, and presentation materials used by the Senior Manager during performance review meetings.
- Collaborated with cross-functional teams to collect, validate, and consolidate operational data, ensuring timely and reliable reporting for management decision-making.

PT. MEDIKA SUKSES LESTARI - Balikpapan, Indonesia

October 2025 - April 2026

Administration and Social Media Specialist

- Managed patient/customer registration and scheduling, handling 10-30 visitors per day with accurate data entry.
- Responded to 100+ WhatsApp and walk-in inquiries, achieving high customer satisfaction and faster response times.
- Planned and executed monthly content calendars for Instagram, posting 8-15 contents per month.
- Increased social media engagement from 2.8K to 50K within 3 months through promotional campaigns, trend-based content, and optimized captions.

PT. YOI SEAFOOD INDONESIA - Balikpapan, Indonesia**December 2023 - June 2024***Business Development Intern*

- Conducted market research and competitor analysis for cold storage rental services.
- Developed a business feasibility study and financial projections (revenue, operating costs, ROI, etc) to support strategic decision-making for the cold storage rental service.
- Handled membership administration by collecting, verifying, and documenting data of over 100 potential clients using MS Excel and Trello.
